If long-term credit exposes a borrower to less risk, why would people or firms ever borrow on a short-term basis?

- ☐ a. Because short-term credit agreements are generally less restrictive than long-term credit agreements.
- ☐ b. Because short-term credit is less risky
- ☐ c. Because flotation costs are lower for long-term debt than for short-term credit.
- ☒ d. Because interest costs at the time the funds are obtained will be higher if the firm borrows on a short-term rather than a long-term basis.
