

1. Candidates **MUST** read and follow instructions given on the reverse of answer sheet before attempting the question paper.
2. All answers are required to be written on the answer sheet and **NOT** on this question paper.
3. Attempt all questions which carry equal marks

Time Allowed: 2 Hours (120 Minutes)

Total MCQs : 100

Total Marks : 100

SECTION I. VERBAL ABILITY	NO. OF QUESTIONS = 40
----------------------------------	------------------------------

SENTENCE COMPLETION:

Instructions (1-9): In this part of test, you have 9 MCQs about English. Each sentence below has one or two blanks, each blank shows that something has been omitted. Choose the correct answer from the four answer choices given with each question, numbered (A), (B), (C), (D).

- Q1. Viruses are invisible through the _____ microscope; but we know that they are there because we can see the _____ they cause.**
- (A) Cheap; Damage (B) Elementary; Harm
(C) Simple; Danger (D) Ordinary; Havoc
- Q2. The sea was coming after me as high as a great hill and _____ as a _____ enemy.**
- (A) Furious; Charging (B) Dreadful; Advancing
(C) Terrible; Charging (D) Angry; Attacking
- Q3. Although its publicity has been _____, the film itself is intelligent, well-acted, handsomely produced and altogether _____.**
- (A) Tasteless; Respectable (B) Extensive; Moderate
(C) Sophisticated; Moderate (D) Risqué; Crude
- Q4. It takes _____ character to _____ the extremities of the arctic region.**
- (A) An unflappable; Sustain (B) A dictatorial; Brook
(C) A Spartan; Negotiate (D) An inimitable; Resist
- Q5. As a journalist who works to overturn erroneous convictions, Griffin Nicholson was opposed to the court ruling _____ appeals for inmates who might be _____.**
- (A) Barring; Culpable (B) Curbing; Exonerated
(C) Encouraging; Innocent (D) Scrutinizing; Eligible
- Q6. Their conversation was unsettling, for the gravity of their topic contrasted so oddly with the _____ of their tone.**
- (A) Uniqueness (B) Rapidity
(C) Lightness (D) Precision
- Q7. The driver suddenly applied the brakes when he saw a _____ truck ahead of him.**
- (A) Stationary (B) Moving
(C) Static (D) Immobile
- Q8. Salma is much too _____ to have anything to do with that obnoxious affair.**
- (A) Noble (B) Proud
(C) Happy (D) Difficult

Q9. Roberto Clement was seen as _____ during his life because of both his selflessness on the baseball field and his humanitarian work in his native Nicaragua.

- (A) An individualist (B) A grandstander
(C) A sybarite (D) An altruist

ANTONYMS:

Directions: In each of the following antonym questions, a word printed in capital letters precedes four or five lettered words or phrases. From these five lettered words or phrases, pick the one most nearly opposite in meaning to the capitalized word.

Q10. ABBREVIATE :

- (A) abridge (B) expand
(C) achieve (D) Accept

Q11. ABJURE :

- (A) Acknowledge (B) disown
(C) Deny (D) hate

Q12. ABSURD :

- (A) Scarcity (B) adorn
(C) Rational (D) flourish

Q13. ABUNDANT :

- (A) ample (B) enough
(C) great (D) scant

Q14. ACERBITY :

- (A) Sweat (B) gentleness
(C) Tasty (D) account

Q15. BLOOMING :

- (A) Fading (B) flowering
(C) Quiet (D) mild

Q16. BLISS :

- (A) Merge (B) disseminate
(C) Dull (D) suffering

Q17. BEWITCH :

- (A) Disenchant (B) rapture
(C) Profit (D) avail

Q18. BAUBLE :

- (A) Plaything (B) valuable
(C) Modest (D) besiege

ANALOGIES:

Directions: Each of the following analogy questions presents a related pair of words linked by a colon. Four or Five lettered pairs of words follow the linked pair. Choose the lettered pair of words whose relationship is most like the relationship expressed in the original linked pair.

Q19. BOOK: READ

- (A) Ointment: Apply (B) Bat: Ball (C) Watch: Time (D) Marriage: Home

Q20. SUSPICION: FAITH

- (A) Prisoner: Punishment (B) Court: Justice (C) Rule: Serve (D) Dawn: Morning

Q21. ENGINE: COMPARTMENT

- (A) Gear: Car (B) Heart: Lungs (C) Needle: Thread (D) Pen: Write

Q22. EDUCATION: SCHOOL

- (A) Medicine: Hospital (B) Production: Factory (C) Wood: Furniture (D) Milk: Cow

Q23. RENOVATION: RENEWAL

- (A) Fail: Examination (B) Tumble: Topple (C) Poor: Poverty (D) Up: Climb

Q24. BUSH: FLORA

- (A) Plant: Fauna (B) Horse: Carriage (C) Fish: Water (D) Blue: Colour

Q25. HEAVY: LIGHT

- (A) Loophole: Fool Proof (B) Weight: Bulb (C) Dark: Night (D) Water: Fire

Q26. BOOK: PAGE

- (A) Parliament: Minister (B) Rope: Fibre (C) Ship: Wood (D) Star: Space

Q27. EXAMINATION: DEGREE

- (A) Doctor: Ph.D (B) Music: Instrument (C) Interview: Selection (D) Sports: Medal

READING COMPREHENSION:

Directions: Read the passage carefully once and detect its theme. Note what the questions are about. Answer the questions.

Passage (Question 28-30): The purpose of education is to make the student an expert in his subject. This must be clearly understood, and mere muddling through lessons and lectures and books and passing examinations are relegated to secondary importance as means to end-which is excellence in the field chosen.

But there are so many fields, and no man can become an expert in all the fields. It is necessary to decide which fields are the important ones that a man should know well.

It is clear that one's own work is the most important. This has been realised and modern civilization has accordingly provided vocational education. It is now possible to acquire high professional skill in the various fields, medicine, engineering production, commerce and so on-but with good and bad mixed together, and no standard for guidance.

Q28. The purpose of education is to make the student:

- (A) An expert in all fields
(B) An expert in his subject
(C) Only capable of earning
(D) Confident only

Q29. What, according to the writer, is the end ?

- (A) Excellence in the field chosen
(B) Passing the examination
(C) Earning more and more money
(D) Cramming lectures and books

Q30. The modern civilization has provided:

- (A) Vocational education
- (B) Art of conversation
- (C) Adult education
- (D) Higher education

Passage (Question 31-32): According to Aristotle, the most important question in the physical world was the search for happiness. He was not an idealist preaching impossible ideals and counsels of perfection. His scientific training made him a realist who believed that happiness was the aim of life and every activity, even ethics, was subordinate to it. He tries to explore the nature of happiness and explains it by differentiating man from other animals in that he possesses the thinking faculty by which he masters the earth and surpasses all living beings and its development will give him fulfilment and happiness.

Q31. In the given paragraph:

- (A) Aristotle surpasses the earth and all living beings
- (B) Aristotle tries to explore the nature of physical world
- (C) Aristotle speaks about all living beings
- (D) Aristotle tries to explore the nature of happiness

Q32. Man differs from other animals in having:

- (A) A brain
- (B) Speaking faculty
- (C) Thinking faculty
- (D) Eating faculty

Passage (Question 33-37): A duty is an obligation. It is something we owe to others as social beings when we live together. We must let others live with us. My right of living implies my duty to my fellowmen to allow them the same conditions of life. Infact, rights and duties are co-related. What is a right in regard to one is a duty in regard to others. Rights and duties are two sides of the same coin. We should always observe from the stand point of others. Thus they are duties. Moral duty is more effective than the legal. A moral duty is that which is upon the people on moral grounds. It is my moral duty to help the poor because of being a member of the society.

I must try to create these conditions which contribute to the welfare of humanity. Similarly, I owe a duty to my parents-to be obedient and respectful to them. This duty originates from the sense of responsibility which is directly related with our conscience. So this maxim is concerned with a moral duty which a man should owe without the legal bondage.

Sense of duty is paramount for the proper development of civilization in the 20th century. Hypocrisy and diplomacy are quite reverse to the sense of duty. Hypocrisy involves wickedness duty involves sincerity and faithfulness.

Q33. Rights and duties according to the passage are:

- (A) Co-related
- (B) Two sides of the same coin
- (C) Neither of the above
- (D) Both (A) and (B)

Q34. According to the author, the moral duty is:

- (A) Enjoined upon animals
- (B) Helping the rich
- (C) More effective than the legal duty
- (D) Secondary to the legal duty

Q35. Where does the duty originate from ?

- (A) From responsibility but not from conscience
- (B) From responsibility which is related with conscience
- (C) From legal bondage
- (D) From hypocrisy and diplomacy

Q36. Point out the incorrect statement.

- (A) Hypocrisy and diplomacy do not support the sense of duty
- (B) Hypocrisy involves wickedness
- (C) Duty involves sincerity
- (D) Sense of duty is not important for the development of civilization

Q37. The author:

- (A) Has sense of responsibility
- (B) Doesn't have sense of duty
- (C) Both (A) and (B)
- (D) Neither (A) nor (B)

Passage (Question 38-40): When we are suddenly confronted with any terrible danger, the change of nature we undergo is equally great. In some cases, fear paralyses us. Like animals, we stand still, powerless to move a step in fright or to lift a hand in defence of our lives, and sometimes we are seized with panic, and again, act more like the inferior animals than rational beings. On the other hand, frequently in cases of sudden extreme peril, which cannot be escaped by fright, and must be instantly faced, even the most timid men at once as if by miracle, become possessed of the necessary courage, sharp quick apprehension, and swift decision. This is a miracle very common in nature. Man and the inferior animals alike, when confronted with almost certain death 'gather resolution from despair' but there can really be no trace of so debilitating a feeling in the person fighting, or prepared to fight for dear life. At such times, the mind is clearer than it has ever been; the nerves are steel, there is nothing felt but a wonderful strength and daring. Looking back at certain perilous moments in my own life, I remember them with a kind of joy, not that there was any joyful excitement then; but because they brought me a new experience, a new nature, as it were and lifted me for a time above myself.

Q38. An appropriate title for the above passage would be:

- (A) The change of nature
- (B) Courage and panic
- (C) The will to fight
- (D) The miracle of confronting danger

Q39. The author names three different ways in which a man may react to sudden danger. What are they?

- (A) He may be paralysed with fear, or seized with panic, or as if by miracle, become possessed of the necessary courage, and face the danger
- (B) He may be paralysed with fear, run away or fight
- (C) He may flee in panic, or fight back or stand still
- (D) He may be paralysed with fear, seized with panic or act like an inferior animal

Q40. The distinction between 'inferior animals' and 'rational beings' is that:

- (A) The latter are stronger

- (B) The latter are capable of reasoning things out whereas the former cannot do so
- (C) The former are incapable of fighting
- (D) The latter are clever

SECTION 2. QUANTITATIVE ABILITY

NO. OF QUESTIONS = 30

PROBLEM SOLVING:

Directions: In the following questions, five possible answers are given, choose the best answer from the five choices listed below each question.

Q41. The sum of a number and its reciprocals is thrice the difference of the number and its reciprocal. The number is:

(A) $\frac{1}{2}$

(B) $\frac{1}{3}$

(C) $\frac{1}{4}$

(D) $\frac{1}{5}$

Q42. When the integer k is divided by 17, the quotient is p and the remainder is 5. When k is divided by 23, the quotient is q and the remainder is 14. Which of the following is true?

(A) $23p + 17q = 19$

(B) $14p + 5q = 6$

(C) $17p - 23q = 9$

(D) $5p - 14q = 6$

Q43. What is the area of a circle whose radius is the diagonal of a square whose area is 9?

(A) 8π

(B) 18π

(C) 3π

(D) 9π

Q44. The circumference of a circle is $x\pi$ units, and the area of the circle is $y\pi$ square units. If $x = y$, then radius of the circle is:

(A) 1

(B) 2

(C) 3π

(D) 2π

Q45. A cylindrical sillo (container for storing grain) has a diameter of 14 inches and a height of 6 inches. Since one gallon equals 231 cubic inches, the capacity of the sillo is approximately:

(A) 4 gallons

(B) 1 gallons

(C) 2 gallons

(D) 2 gallons

Q46. What is the volume of a cube whose surface area is 294?

(A) 125

(B) 216

(C) 294

(D) 343

Q47. The ratio of boys to girls in a certain classroom was 2 : 3. If boys represented five more than one-third of the class, how many people were in the classroom?

(A) 15

(B) 23

(C) 21

(D) 27

Q48. What is the average of 5^{30} , 5^{60} , 5^{17} , 5^{13} and 5^{90} ?

(A) 5^{210}

(B) 5^{209}

(C) $5^{29} + 5^{59} + 5^{16} + 5^{12} + 5^{89}$

(D) 5^{205}

Q49. If $p + 1 < 3p + 5$, then:

(A) $p < -2$

(B) $p > -2$

(C) $p = 0$

(D) $p > 2$

Q50. Which of the following numbers cannot be represented by a repeating decimal?

(A)

(B)

(C) 7

(D)

Q51. If an equilateral triangle and a square have the same perimeter, what is the ratio of the lengths of the sides of the equilateral triangle to the lengths of the sides of the square?

(A) 3 : 4

(B) 4 : 3

(C) 1 : 2

(D) 1 : 3

Q52. If $++ = 12$, then $x =$

- | | |
|-----|-----|
| (A) | (B) |
| (C) | (D) |

Q53. If $a + 2b = x$ and $a - 2b = y$, which of the following expression is equal to ab ?

- | | |
|-----|-----|
| (A) | (B) |
| (C) | (D) |

Q54. If the sum of the two integers is 42 and their difference is 22. Then the greater of the two integers is:

- | | |
|--------|--------|
| (A) 25 | (B) 32 |
| (C) 8 | (D) 10 |

Q55. Each of Nazir's buckets has a capacity of 11 gallons, while each of Osama's buckets can hold 8 gallons. How much more water in gallons can 7 of Nazir's buckets held compared to 7 of Osama's buckets?

- | | |
|----------------|----------------|
| (A) 7 gallons | (B) 9 gallons |
| (C) 21 gallons | (D) 24 gallons |

Q56.

In the above figure, three equal circles of radius 3 cm each touch each other, then the area of the shaded portion is:

- | | |
|------------------------------|------------------------------|
| (A) $(-\pi) \text{ cm}^2$ | (B) $(2 + \pi) \text{ cm}^2$ |
| (C) $(2 - \pi) \text{ cm}^2$ | (D) $(2 - \pi) \text{ cm}^2$ |

Q57. If two circles touch each other externally at C and AB is a common tangent to the circles. Then $\angle ACB$ is:

- | | |
|------------------------------|-----------------------------|
| (A) greater than 120° | (B) greater than 90° |
| (C) less than 90° | (D) equal to 90° |

Q58. A train running between two towns arrives at its destination 10 minutes late when it goes 40 miles per hour and 16 minutes late when it goes 30 miles per hour. The distance between two towns is:

- | | |
|--------|---------|
| (A) 12 | (B) 720 |
| (C) 8 | (D) 12 |

Q59. What is the value of t in the following figure?

- | | |
|--------|--------|
| (A) 45 | (B) 30 |
| (C) 40 | (D) 55 |

Q60. Two trains 132 meters and 108 meters in length are running towards each other on parallel lines, one at the rate of 32 km per hour and another at 40 km per hour. In what time will they be clear off each other from the moment they meet?

- | | |
|------------|------------|
| (A) 20 sec | (B) 15 sec |
| (C) 12 sec | (D) 29 sec |

Q61. If $2^a = x$ and $2^b = y$, then $xy =$

- | | |
|---------------|---------------|
| (A) 9^{a+b} | (B) 2^{ab} |
| (C) 4^{a+b} | (D) 2^{a+b} |

Q62. If the average (arithmetic mean) of three consecutive integers is M, then which of the following must be true?

- I Any one of the three numbers is M
- II The average of two of the three numbers is M.
- III M is also an integer

- (A) I only
(C) III only

- (B) II only
(D) I, II and X

Q63. If $a^2 = 17$, then $(a + 1)(a - 1) = ?$

- (A) 15
(C)

- (B) 12
(D) 16

Q64. Which of the following cannot be expressed as the sum of three consecutive integers?

- (A) 27
(C) 21

- (B) 26
(D) 42

QUANTITATIVE COMPARISON:

Directions: Direction: In the following type of question, each consists of two quantities, one in column A and one in column B. You must compare two quantities and on the answer sheet fill in:

- A if the quantity in column A is greater.
B if the quantity in column B is greater.
C if the two quantities are equal.
D if the relationship cannot be determined from the information given.

Notes: Sometimes, in certain questions, information concerning one or both the quantities to be compared is centered above the two columns. A symbol that in both columns represents the same thing in column A as it does in column B.

Column A	Column B
$7 \cdot 7 \cdot 7 \cdot 7$	7^4
N is a positive integer	
$(2)^N$	$(-2)^{N+1}$
2^{5-1}	$2^5 - 1$
$(3^0)(9^1)$	27
$x > 1$	
$x^{-1}y$	
y^x	x^x
The sum of 5 consecutive integer is 0	
The product of the integers	The average of the integers

SECTION 3. ANALYTICAL ABILITY**NO. OF QUESTIONS = 30****ANALYTICAL REASONING:**

Questions 71-81: Because of a computer malfunction, an accountant cannot directly determine the classification of certain accounts. Each account falls into one of five classifications: type 1, type 2, type 3, type 4, or type 5. The accountant hopes to be able to determine the classification of these accounts by tracing which operations the computer has performed on them. There are exactly four operations: W, X, Y and Z. No operation can be performed more than once on a given account, and the operations were performed, without exception, according to the following rules:

- v If an account is a type 1, the computer performs either operation W or, alternatively, operation X.
- v If the account is a type 2, the computer performs either operation X alone or, alternatively, operation X and any one of the remaining operations except W.
- v If an account is a type 3, the computer performs either operation Y alone or, alternatively, operation Y and any one of the remaining operations.
- v If an account is a type 4, the computer performs exactly two operations in any combination except that X cannot be one of the two operations.
- v If an account is a type 5, the computer performs exactly three operations in any combination drawn from the four operations.

Q71. If the accountant knows that the computer has performed exactly one operation on an account, which of the following must be true?

- (A) The account is either a type 1 or a type 2
- (B) The account is either a type 1, a type 2, or a type 3
- (C) The account is either a type 2, a type 3, or a type 5
- (D) The account is either a type 2, a type 4, or a type 5
- (E) The account is either a type 3, a type 4, or a type 5

Q72. If the accountant knows that the computer has performed operation Z on an account but cannot determine solely from traces in the account whether any other operation has been performed, the account could be any one of the five types EXCEPT type:

- (A) 1
- (B) 2
- (C) 3
- (D) 4
- (E) 5

Q73. Which type of account, if operated on by the computer, must have operation X performed on it?

- (A) Type 1
- (B) Type 2
- (C) Type 3
- (D) Type 4
- (E) Type 5

Q74. If the accountant knows that operations X and Z are the only operations that have been performed on an account, the account must be a type:

- (A) 1
- (B) 2
- (C) 3
- (D) 4
- (E) 5

Q75. If the accountant knows that the computer has performed exactly two operations on a given account, and operation Y was not one of the two, which of the following must be true?

- (A) The account is either a type 1 or a type 2
- (B) The account is either a type 2 or a type 3

(C) The account is either a type 2 or a type 4 (D) The account is either a type 3 or a type 4

(E) The account is either a type 3 or a type 5

Q76. If the sixth book is a leather-bound book and the eighth book is a clothbound book, which of the following must be a paperback book?

- (A) The first (B) The second (C) The third
(D) The fourth (E) The ninth

Q77. The clothbound books must be next to each other if a paperback book is in which of the following positions?

- (A) The first (B) The third (C) The fifth
(D) The seventh (E) The ninth

Q78. If the second book is a clothbound book and the third book is a paperback book, which of the following can be a clothbound book?

- (A) The fourth (B) The sixth (C) The seventh
(D) The eighth (E) The ninth

Q79. If no clothbound book is next to another clothbound book, any of the following could be paper-back books EXCEPT the:

- (A) Second (B) third (C) fifth
(D) Seventh (E) eighth

Q80. If the first and seventh books have the same kind of binding, which of the following must be a leather-bound book?

- (A) The first (B) The second (C) The fourth
(D) The sixth (E) The eighth

Q81. If a clothbound book is in the fifth position and leather-bound book is in the ninth position, which of the following pairs of books must have different kinds of binding?

- (A) The first and the second (B) The second and the third (C) The second and the fourth
(D) The third and the fourth (E) The third and the fifth

Question 82-86: Seven dignitaries ...F, G, H, I, N, O, and P — are to be seated together at a diplomatic ceremony. They will be seated in a row of seven chairs, numbered from 1 to 7, from front to back. Any seating is acceptable as long as all seven dignitaries are seated, one in each chair, and the seating conforms to the following rules:

- v F must sit in the chair immediately behind O's chair.
- v G cannot sit in the chair immediately in front of N's chair, and G cannot sit in the chair immediately behind N's chair.
- v There must be exactly two chairs between the chairs of H and P.
- v There must be at least one chair between the chairs of I and P.
- v N must sit in chair 3.

Q82. Which of the following seating arrangements, from chair 1 through chair 7, conforms to the rules?

- (A) E, I, N, P, G, O, H (B) G, P, N, I, H, O, F (C) I, G, N, P, O, F, H
(D) I, H, N, P, O, F, G (E) O, F, H, N, I, P, G

Q83. If F sits in chair 6 and H sits in chair 7, which of the following dignitaries must sit in chair 2?

- (A) G (B) I (C) N
(D) O (E) P

Q84. If the seating arrangement, from chair 1 through chair 7, is G, I, N, H, O, F, P, which of the following pairs of dignitaries can exchange seats without violating the rules?

- (A) F and G (B) G and H (C) G and I
(D) H and P (E) I and P

Q85. If O sits in chair 1 and H sits in chair 7, then the number of chairs between F's chair and I's chair must be:

- (A) Zero (B) one (C) two
(D) Three (E) four

Q86. If H sits in chair 4 and F sits in chair 6, then the dignitaries in chairs 1 and 7, respectively, must be:

- (A) G and O (B) G and P (C) I and P
(D) O and I (E) P and O

Questions 87-92: At an art show, exactly five sculptures are to be displayed in a room with exactly five stands, arranged along a single wall and numbered consecutively 1 through 5. The sculptures are to be selected from a total of eight sculptures — M, N, P, Q, R, S, T, and U... and displayed, one sculpture on each stand, according to the following conditions:

- ✓ Either M or U or both must be selected.
- ✓ If M is selected, M must be on stand 1.
- ✓ Either R or S must be on stand 3.
- ✓ If T is selected, P must also be selected, and T and P must then be on stands that are immediately adjacent to one another.

Q87. Which of the following is an acceptable selection of sculptures to be displayed on stands 1 through 5?

- | 1 | 2 | 3 | 4 | 5 |
|-------|---|---|---|---|
| (A) M | R | T | P | Q |
| (B) N | T | S | U | Q |
| (C) P | T | S | R | U |
| (D) T | P | R | S | M |
| (E) U | N | Q | P | T |

Q88. If S is on stand 1, which of the following must be true?

- (A) P is on stand 4 (B) R is on stand 3 (C) T is on stand 2
(D) T is on stand 4 (E) U is on stand 5

Q89. If T is on stand 5, which of the following pairs of sculptures can be on stands that are immediately adjacent to each other?

- (A) M and P (B) Q and N (C) Q and P
(D) R and T (E) U and R

Q90. If U is on stand 4, any of the following can be on stand 5 EXCEPT:

- (A) N (B) P (C) Q
(D) R (E) T

Q91. If T is on stand 2, which of the following sculptures must be selected?

- (A) M (B) N (C) R
(D) S (E) U

Q92. If P is not selected and R is on stand 1, which of the following lists, in alphabetical order, those sculptures that must also be selected?

- (A) M, Q, T, and U (B) N, Q, S, and T (C) N, Q, S, and U
(D) N, S, T, and U (E) Q, S, T, and U

LOGICAL REASONING:

Questions 93-99 refer to the following paragraph.

Selfishness is a principal evil in our society. Every person is concerned with only himself. Personal advancement is the only motivating force in the world today. This does not mean that individual, are not willing to help one another, on the contrary, _____. However, these are only short-term occurrences, which ultimately serve our long-term goal of personal gain.

Q93. To fill in the blank in the above passage, select one of the options from the below mentioned options:

- (A) We are always trying to undermine others endeavours.
(B) People always deceive one another.
(C) Even close friends are not trustworthy.
(D) People want power to control others.
(D) There are many occasions when we graciously offer our assistance.

Q94. Which among the following options would most strongly contradict the author's attitude towards society?

- (A) The greatest strength of society is altruism.
(B) We must all learn the art of love.
(C) Our short-term actions may contradict our long-term goals.
(D) Morality is the bedrock of a growing community.
(D) The forces of goodwill ultimately triumph over evil.

Q95. Many people do not read the books they purchase. For example, seventeen percent of college students in Pakistan have textbooks, but only forty-five percent of them read more than once a year, and only seventeen percent read more than once a week. Which of the following, if true, casts doubt on the claim that most people read the books they purchase?

- (A) Readers often exaggerate about their book reading.
(B) The sale of novels is more than that of other types.
(C) Many people buy books to pretend themselves as a scholar.
(D) Regular book readers are most susceptible to eye diseases.
(D) Reading speed is increased by frequent readings.

Q96. The value of a close examination of the circumstances of an aircraft accident lies not only in fixing blame but in learning lessons.

The above statement first most logically into which of the following types of passages?

- (A) A survey of the "scapegoat phenomenon" in modern society.
(B) An argument in favour of including specific details in any academic essay.
(C) An argument against the usefulness of the National Transportation Safety Board.
(D) A brief history of aeronautics.

(D) A description of the causes of a particular aircraft accident.

Q97. In the first message to Congress, Harry Truman said, “The responsibility of the United States is to serve and not dominate the world.”

Which of the following is one basic assumption underlying Truman’s statement?

- (A) The United States is capable of dominating the world.
- (B) The United States chooses to serve rather than dominate the world.
- (C) World domination is a virtue.
- (D) One must be decisive when facing a legislative body for the first time.
- (D) The United States, preceding Truman’s administration, had been irresponsible.

Q98. A researcher has concluded that women are just as capable as men in math but that their skills are not developed because society expects them to develop other and more diverse abilities.

Which of the following is a basic assumption of the researcher?

- (A) Ability in math is more important than ability in more diverse subjects.
- (B) Ability in math is less important than ability in more diverse subjects.
- (C) Women and men should be equally capable in math.
- (D) Women might be more capable than men in math.
- (D) Women tend to conform to the social expectations.

Q99. Researchers have found an inactive virus in dry bread. In previous experiments, researchers found that inactivated viruses could convert healthy cells into cancer cells. It can be concluded that the use of dry bread can cause cancer. Which one of the following, if true, most seriously weakens the argument?

- (A) The result of many studies about the same topic were consistent.
- (B) Many other ingredients in dry bread can neutralize the effect of inactive virus.
- (C) Many of cancer patients confirmed the use of dry bread.
- (D) Ten percent of rural population use dry bread.
- (D) Inactive virus cannot be killed by any medicine.

Questions 100 refer to the following paragraph.

“The sum of behaviour is to retain a man’s dignity without intruding upon the liberty of others,” stated Sir Francis Bacon. If this is the case, then not intruding upon another’s liberty is impossible.

Q100. The conclusion strongly implied by the author’s arguments is that:

- (A) Retaining one’s dignity is impossible without intruding upon another’s liberty.
- (B) Retaining dignity never involves robbing others of liberty.
- (C) Dignity and liberty are naturally exclusive.
- (D) There is always the possibility of a “dignified intrusion”.
- (D) None of the above.

SELF TEST PAPER - ANSWER SHEET

First of all Fill the answer sheet by yourself then compare it with answers key given at the end.

Note: Use only BALL PEN (Black/Blue) to shade/fill the circles.

Analyzing Your Test Results

The chart on this page should be used to carefully analyze your results and spot your strengths and weaknesses. The complete process of analyzing each subject area and each individual problem should be completed for each practice test. These results should then be re-examined for trends in types of errors (repeated errors) or poor results in specific subject areas. *This reexamination and analysis is of tremendous importance to you in assuring maximum test preparation benefits.*

Section 1: Verbal Ability	Possible	Completed	Right	Wrong
1. Sentence Completion	9			
2. Antonyms	9			
3. Analogies	9			
4. Reading Comprehension	13			
Subtotal	40			
Section 2: Quantitative Ability	Possible	Completed	Right	Wrong
1. Problem Solving	24			
2. Quantitative Comparison	6			
Subtotal	30			
Section 3: Analytical Ability	Possible	Completed	Right	Wrong
1. Analytical Reasoning	22			
2. Logical Reasoning	8			
Subtotal	30			
Overall Totals	100			

Analysis/Tally Sheet for Problems Missed

One of the most important parts of test preparation is analyzing why you missed a problem so that you can reduce the number of mistakes. Now that you have taken the practice test and checked your answers, carefully tally your mistakes by marking them in the proper column.

	<i>Possible</i>	<i>Total Missed</i>	<i>Total Missed</i>	<i>Simple Mistake</i>	<i>Misread Problem</i>	<i>Lack of Knowledge</i>	<i>Lack of Time</i>
SECTION 1: VERBAL ABILITY							
1. Sentence Completion	9						
2. Antonyms	9						
3. Analogies	9						
4. Reading Comprehension	13						
Subtotal	40						
SECTION 2: QUANTITATIVE ABILITY							
1. Problem Solving	24						
2. Quantitative Comparison	6						
Subtotal	30						
SECTION 3: ANALYTICAL ABILITY							
1. Analytical Reasoning	22						
2. Logical Reasoning	8						
Subtotal	30						
Overall Totals	100						

Reviewing the proceeding data should help you determine *why* you are missing certain problems. Now that you've pinpointed the type of error, compare it to other practice tests to spot other common mistakes.
